Forensic Investigation

This fascinating, hands-on class will familiarize you with the science of crime scene investigation and forensics as you try to solve a hard-to-crack crime! Using actual methods and tools used by professional forensic investigators, you will conduct experiments on the evidence you'll gather at a "crime scene". This evidence may include eyewitness accounts, fingerprints, hair and fingernail samples, "blood" and writing samples. Time's running out, the police department needs your help to crack the case!

Marine Biology

Have you ever wondered what a shark looked like up close? Did you know that a squid's spine looks and feels just like a piece of clear plastic? Learn about the fascinating world of marine biology in this fun, hands-on lab class. You will study an assortment of sea creatures using live observation, microscopes and dissections. The dissection labs may include the following creatures: a small shark, starfish, squid, clam, crayfish, and various coral specimens. Do you know which marine creature has no brain, eyes, or teeth but is on the deadliest creatures on earth? Take this class and you'll find out!

 Location: Darien Park District Community Center
 Instructor: Staff from Computer Explorers

Fungineering with Simple Machines

Using Lego™ Educational kits, budding engineers will learn about simple machines by building models of real-life devices such as a motorized car, a drawbridge, a motorized crane and a conveyor belt. They will learn about the concepts of pulleys, levers, wheels and axles, and gears and bring their projects to life using battery-operated motors. Through the building of realistic motorized models, students will develop an understanding of mechanical principles. They will explore, investigate, and solve problems in a fun group environment. Two children per LEGO® kit.

Lights, Camera, Action-Making your own Star Wars Movie

Do you want to be the next George Lucas? We will create our very own Star Wars™ movie using special digital movie making cameras and software. As directors and producers we will work in teams to create our own story and script, build various Star Wars™ Lego® scenes and film our own movie. We will use graphic editing techniques and stop motion animation, add background noise and music, and show our movie at a private screening on the last day of class. All students will get a copy of their movie after class is complete.

Checkmate Chess

Develop your child's intellect through the royal game of chess! Current research has shown a strong link between chess and academic performance in a variety of areas, including mathematics and language arts. Also, chess has been proven to enhance children's motivation, concentration, focus, social skills, and creativity.

Learn how to win at chess! No previous knowledge of chess is necessary. Each class will consist of a fun interactive teaching period and guided practice time. Due to the small size of the group, each child will receive plenty of personalized attention. Both new and returning participants are welcome and will progress to the next level under the guidance of an experienced Chess Scholars coach. There will also be a chess competition with prizes!

Age: 6-13 year olds
 Location: Darien Park District Community Center
 Instructor: Staff from Chess Scholars
 Note: *No class 3/29
